

“Eco Baltia grupa” invested in the development of the company last year.

Environment management Group “Eco Baltia grupa” achieved turnover of MEUR 45.5 in 2015, which is an increase by 1.4% compared to 2014. Compared to 2014, the Group’s profit has tripled reaching MEUR 2.78 in 2015. The financial results show the efficiency and stable growth of the Group companies.

Māris Simanovičs, “Eco Baltia grupa” Chairman of the Board: *“We were working purposefully in 2015 to make the Eco Baltia Group companies more efficient and to increase the competition in the waste management industry by retaining stable leading position and offering our clients high-quality services. Our largest investment of 2015 was the waste sorting facility in Liepāja Region, where we invested MEUR 3.25. The facility has had, without doubt, a positive socially economic impact in the region, currently employing 24 employees, which is more than we had planned.*

This year we have also worked to ensure long-term development, creating new products and services for the market and improving the logistics system and quality of services. Our goal is to continue implementing modern, technologically developed waste management, sorting and recycling system that is as environmentally friendly as possible and competitive on the European and global level.”

The companies engaged in production of recycled materials AS “Pet Baltija” and SIA “Nordic Plast” continued developing in 2015 by increasing their production capacity and developing new products. The companies are leading processors of polymers in the Baltics exporting almost 100% of the produced goods mainly to other member states of the European Union. This year it is planned to implement new and more efficient technologies to increase the production capacity retaining the quality of products and implementing innovative products in the market. Last year the producer of recycled materials “PET Baltija” achieved turnover of EUR 18,355,991 and recycled 28,480 tonnes PET bottles. SIA “Nordic Plast”, in its turn, made comparatively small investments to ensure the production capacity in 2015. The company has produced 8,777 tonnes of ready-made materials, 90% of which was exported to other European countries and the company’s net sales amounted to EUR 9,130,159.

SIA “Eco Baltia vide” continued providing environment management services in the Rīga, Ādaži, Salaspils, Babīte, Mārupe, Talsi, Engure, Jaunpils, Kandava, Mērsrags, Roja and Dundaga Municipalities in 2016. Net sales of SIA “Eco Baltia vide” in 2015 amounted to EUR 7,416,530. The company generated profit of EUR 342,571. Last year, SIA “Eco Baltia vide” established the first waste recycled waste acceptance point in Rīga – on Getliņu Street 5, Rumbula, Stopiņu Municipality – where all inhabitants of Rīga and nearby region can deliver their recycled waste.

The environment management company PSIA “Jumis” provides environment management services in Sigulda and the nearby region. Net sales of the company was EUR 635,392 in 2015. Last year the company developed new projects and services. The company has established a network of eight recycled waste acceptance points in Sigulda. There are underground containers for sorting glass and plastic at each point. The project was implemented using the financing from the Cohesion Fund of the European Union. The total cost of the project was EUR 48,991, out of which EUR 19,544 was co-financed by the Cohesion Fund.

The environment management company in the Liepāja Region SIA “Eko Kurzeme” implemented the largest investment project – construction of household waste sorting facility. By investing MEUR 3.25, one of the most modern facilities of this type has been established in the Baltics. The facility allows sorting up to 35,000 tonnes of household waste per year. This ensures the development potential of the facility in future and will allow reducing the amount of waste buried in the landfill. SIA “Eko Kurzeme” concluded the year 2015 with net sales of EUR 2,780,335 and the profit of EUR 409,784.

“Eco Baltia grupa” companies employ 600 employees. Last year, the Group companies paid taxes of MEUR 5.2. The Group companies service more than 46,000 clients in Latvia and abroad.

“Eco Baltia grupa” companies are leaders in Latvia providing full waste management cycle – starting with collecting and sorting of waste and ending with recycling and exports of recycled materials.
